PALMETTO SURFACING
INCORPORATED

Thank you for your interest in Palmetto Surfacing! We look forward to working with you! Below is the process for our typical remodel, called a Tearout, Template and Reinstall here at PSI! Please let us know if you have any questions or concerns along the way!

Tearout of your existing counters will take place on a Monday. Once the tearout is completed, we will do our final measure (template) that same day. Installation will occur on Thursday of the same week!

A few things the customer is responsible for:

- Plumbing, Electrical & Gas – PSI is not a licensed electrician or plumber. Please have all disconnected prior to our arrival
- Clean off countertops prior to our arrival
- Sheetrock and trim work modifications are outside of our scope of work. A carpenter or handyman can take care of these repairs.

Here are a few recommendations that we have worked alongside in the past.

Blitch Plumbing – 843-795-9674

Advance Plumbing, Heating and Air – 843-556-3611

Smoaks Comfort Control (Plumbing) – 843-556-9550

Handyman Connection – 843-529-9400

Mr. Sparky of Charleston (Electrician) – 843-418-0696
